Osaka Disaster Prevention app

Receive **disaster prevention** information
in Osaka Prefecture

Disaster prevention app
you can use on a daily basis

Osaka

Disaster Prevention app

Try it ! 大阪防災アプリ Osaka Disaster Prevention app

It's okay even if you don't know the area Location Information Service

Anywhere in Osaka Prefecture, you
can access real-time disaster
prevention information based on
your current location using GPS
services.

※Please ensure the app's location permission is set to
"Always Allow."

Receive more familiar information Municipality selection

Information can be provided not only for
the entire Osaka Prefecture but also for
each municipality within it.

By selecting the municipality, you can
access disaster prevention materials
and receive notifications specific to that
area.

Choose the information you want Push Notification

The app offers comprehensive disaster
prevention information, including weather
advisories, warnings, earthquakes, tsunamis,
and typhoons. Additionally, it provides
essential guidance on preventing heatstroke,
identifying linear precipitation bands, and
accessing evacuation instructions from local
authorities.
Users can also receive notifications from their
respective local governments.

Use the app on a daily basis Rain Radar

You can also check daily rain cloud
conditions, linear precipitation bands
and typhoon forecast circles.
You can continuously display and view
future precipitation intensity distribution
predictions from 60 minutes in advance
to 15 hours in advance.

Prepare for Emergencies Hazard Map

You can check the risks of landslides,
storm surges, tsunamis, and floods, as
well as the location of evacuation
centers in Osaka Prefecture on the
hazard map.

Download offline maps for each
municipality in case communication is
cut off during a disaster

Check the current situation with images Disaster Surveillance Camera

By clicking a camera icon on the map,
users can access images captured by
approximately 200 river cameras and
three wide-area cameras in Osaka
Prefecture.

Additionally, the app allows you to
check the water levels of nearby rivers,
rainfall situations, and more.

※Languages available: English, Chinese, Korean, and easy Japanese
